About

I have been developing Android apps for three (4) years as a passionate and motivated professional. I enjoy embracing fresh challenges with enthusiasm and a positive mindset aligned with the company's goals.

Additionally, I am a team player who enjoys building up a collegial atmosphere. My positive attitude extends to my willingness to mentor colleagues when needed. I consider myself a responsible and loyal person with excellent communication and interpersonal skills.

I am eager to expand my knowledge of new technologies and keep up to date with the latest terminology in the field so as to contribute to the fast-paced world of technological advancements.

Experience

Android Mobile Developer Jr Adv, Globant
May. 2022 - Mar. 2023
Building an Android App in Kotlin applying clean architecture and MVVM with Jetpack Compose. Besides this, collaborating with my team to fix bugs or to add new features. Additionally, mentoring and solving the questions of my colleages.

Android Developer, FletX
Nov. 2021 - May. 2022
Development and maintenance of some android applications in Kotlin and Java obtaining data from API's. Working with MVVM architecture, retrofit, material design and Google Maps.

Android Mobile Developer, BPSmart
Mar. 2020 - Nov. 2021
Developing Android applications in Kotlin language integrated with Firebase. Applying endpoint consumptions, Intent calls (calendar, calls, webviews, whatsapp) and device services such as: location, internet, reading/writing for images and videos. Use of Material Design towards the design side. Integration of payment gateways. Use of Github and Git, handling of some essential commands for version control.

Education

Computer Science BSc.
Universidad Pedagógica y Tecnológica de Colombia UPTC Sogamoso, Colombia
2015 ~ 2022
